
The real world: the curse of reality
unseen and irregular objects · long-tail scenarios · closed-loop shift · gaps between training and deployment
observations
actions
RQ1 · Perceive
RQ2 · Reason
RQ3 · Act
Chapter 4
what is where
Chapter 5
what matters
Chapters 6 and 7
Scene as Occupancy
3D occupancy (OccNet)
OpenOcc · OpenScene
benchmarks
DriveLM
graph visual question answering
perception → prediction → planning
Centaur Ch. 6
test-time training for end-to-end driving
χ0 Ch. 7
robust manipulation under distributional inconsistency
RQ4 · Architecture
Chapter 8
design lessons for self-correction: planning-oriented design (UniAD*), fast and slow systems (ETA*), test-time adaptation, self-directed learning*
Chapter 2 Background
Chapter 3 Research methodology
Chapter 9 Conclusion
Method
Benchmark
